Entered at the postoffice in Tonopah as second class matter.

## DIVERSION OF BENEFITS

With all the industrial unrest that exists in this country today, it is evident that in looking over the field a large part of it can be traced to the Industrial Workers of the World, or, as it is more commonly known, the I. W. W., the leaders of which, headed by Big Bill Haywood, claim to be the only true friends of the workers. The sincerity of their so-called leaders has many times been questioned and in the light of recent happenings their sincerity of purpose is, many believe, open to question. To put it briefly, one of the fundamental duties of a labor union during time of strike, during strike lockouts, etc., is to render aid to the members of the organization. This aid of a financial nature is usually given from what is known as the defense fund of the different unions. This fund is derived from the setting aside of a certain percentage of the dues paid in by the members. This method is supposed to be in vogue in the I. W. W., as a reference to Section 1 of Article 4, to be found on page 24 of the constitution, will show. Part of this fund would be paid to lawyers to defend them. The Chicago case alone has up to date cost the organization far in excess of \$100,000 and there are still at this time numerous lawyers throughout the country drawing down large fees, many of which come out of the pockets of the member, who derives no benefit from it. And still, with this fact staring the world in the face, we have the spectacle presented to us of one of the officials of the organization recently saying to a body of the members who were out on an ill-advised strike, and some of whom were in actual want, when they appealed for relief that "I do not think that organization funds should be used for relief." This was Jas. J. Gannon, district secretary of Metal Mine Workers' Industrial union No. 830, the man from whom the leaders now in the Tonopah district take their orders. Think of it, men. Thousands of dollars for lawyers and to pay salaries to Gannon and others of his kind, but not one cent to clothe and feed the women and children who are hungry and cold and have become as due to the fact that their husbands and fathers are idle as a result of their having listened to and believed the false teachings of these men. If the actions of these men showed them to be sincere, the people would be with them heart and soul, but as it is, their actions prove them to be anything but sincere or friends of the working man. These are facts that cannot be denied and the men of the Tonopah district and the entire country should look the situation squarely in the face and not be longer fooled by these men who have on the face of it only their own personal aggrandizement at heart.

## POLITICS OR PRINCIPLE.

Small partisan politics or patriotism be paramount? That is the question that must be decided by the democrats of the senate when they cast their votes on the league of nations. Some of the leaders have had the courage of their convictions, and have declared their position in unmistakable terms. Members of their party throughout the country should ponder their declarations, and ask themselves the question whether it is now or ever will be expedient to discard the principles upon which this nation was founded and that have guided its prosperity to the present day. Senator Thomas of Colorado, one of the best minds in the upper house, has this to say: "I love the democratic party, I have been a humble member of it since my majority; I have fought many of its battles and it has honored me far beyond my deserts; but in a matter of this importance, presenting problems not only of a national, but of an international character, affecting American institutions and American destiny, fraught with possible benefits and equally possible evils which we can not wholly conjecture, I am obliged to follow the dictates of my own judgment and my own conscience, regardless of consequences to myself, to the democratic or any other political organization."

## BRAIN AND BRAIN.

There is a shortage of over 40,000 school teachers in the country. Lots of them have put their noodles in moth balls and gone into industries where the thumb and fingers or the biceps count far more than mere brain work. When a man can get \$7 a day for driving nails through a shingle there isn't much sport in teaching the young idea how to shoot for ninety backs a month. There are a lot of white-domed college professors who would like to take the places of some of these steel strikers who do not know whether Gato is a food or a drink.

Secretary Daniels told a convention of war mothers in Washington that the covenant of the league of nations would keep us out of war, but that this country would never cease to build battleships, on account of our destiny beyond the seas. Presumably the battleships will be put in the oyster trade. Since these democratic politicians put over that "he kept us out of war" stuff in 1916, they will try anything on an audience.

The Japanese word for "democracy," translated into English, means "harmony between ruler and ruled." Now we know the kind of democracy the administration is out to save us for. And of course the way to get harmony between ruler and the ruled is for the ruled to accept the outgivings of the ruler as holy writ, even when they're wholly rot.

It is absolutely essential to the welfare of this country that the interests of every description which are continuously engaged in decreasing production and increasing compensation for their output should be stopped somewhere. The people can stand it to pay more and more but there is a limit to where they can go in getting less and less.

## HOCKEY LIVENS UP NORTHWEST

(By Associated Press) VANCOUVER, B. C., Oct. 22.—Three clubs, Vancouver, Victoria and Seattle, will again take up the Pacific Coast Hockey Association, the hockey winter, Frank Patrick, Vancouver, president of the association, announced here recently.

The same three clubs last winter fought through a three month schedule for the coast championship, which was won by the Seattle Metropolitans. Seattle at present shares world championship honors with Montreal's National Hockey League team. The series between Seattle and Montreal earlier been halted by its 7 games last spring when each team had two victories.

The new team will be seen at the Vancouver arena this winter. It is believed. Frank Patrick will one season manage the Vancouver team, leaving Patrick to the latter will lead the Victoria and "Totes" Muldrew will join the Seattle championship team. Most of the players of last season are expected to repeat this year.

Patrick recently denied rumors from Montreal that the world championship hockey would be played off in Seattle some time in December. "There is no talk of world championship," he said, "until the close of the next season, when the league and world championships teams meet on eastern ice."

## SIBERIA FULL OF PRISONERS

(Correspondence of Associated Press) MOSCOW, Sept. 1.—The Paris Sept. 19.—Polish who have just completed a pilgrimage of weeks from the heart of Siberia to the overcrowded city of Moscow have brought to American Red Cross headquarters in that city the news that at least 20,000 Russian war prisoners are waiting in Siberia for an opportunity to return to Poland. Some placed the number at 30,000.

According to the beleaguered refugees who, with them, once American prisoners in western Siberia, a full of homeless men claiming Polish nationality. The problem created is pointed by the return of the prisoners and refugees is already acute. The government being formed in Poland is now Red Cross help to feed and clothe them. Should the number of refugees still to return be in keeping with the estimate brought by the new arrivals, it will mean an enormous additional burden for the government and Red Cross relief service.

The wholesale price of pork has dropped a bit of course, but the equivalent still continues to be more expensive than the ordinary citizen.

Quite a number of presidential candidates are standing with reluctant feet where the political waters meet, and in the meantime they are preparing to don their bathing costumes.

## VIENNA DYING TO SLOW MUSIC

(Correspondence of Associated Press) BERLIN, Sept. 20.—Vienna, ever a gay city, is now more superficially gay than ever, owing to the Hitler traders who have profited by the war and now are spending their ill-gotten gains. A newspaper correspondent from the Austrian capital Vienna says one of these writers is "drunk to music." He describes the scene in the dance halls and parlors and gambling rooms, the "voluptuous" that nearly all the people participate in a desperate demand for sport and enjoyment and adds that this early whirl of enjoyment "brings on self-destruction" and produces a frightful effect on the sober-minded people of the city.

Public amusements are provided in the pleasure parks and Schenbrunn, where are given plays for children, fireworks, athletic dances, Tynese of Vienna by Berchtesgaden peasants, arts from Ljubljana and band concerts.

One writer says that all of this "sport" for amusement is only a mask for permissiveness and inability to believe in order and sane life or recovery of self-respect and individuality.

## TO KEEP KOREA AT ALL HAZARD

(Correspondence of Associated Press) SEOUL, Korea, Sept. 5.—Comment on the attempted assassination of Admiral Sir John Saito, the semi-official Seoul press expresses the opinion that by this act the Korean authorities have "sealed their doom." The paper says:

If Korean nationalists think that the assassination of a few heads of the Japanese General of Korea will save Japan and make her relax her hold on Korea they are indeed mistaken. Japan is determined to hold the peninsula at all cost and will not let it go no matter what things Korean agitators may do. They will lose whatever sympathy they may have had among a section of the people and have sealed their doom.

## NOTICE TO MINERS

BATTLE MOUNTAIN, Nev., Oct. 17, 1919.

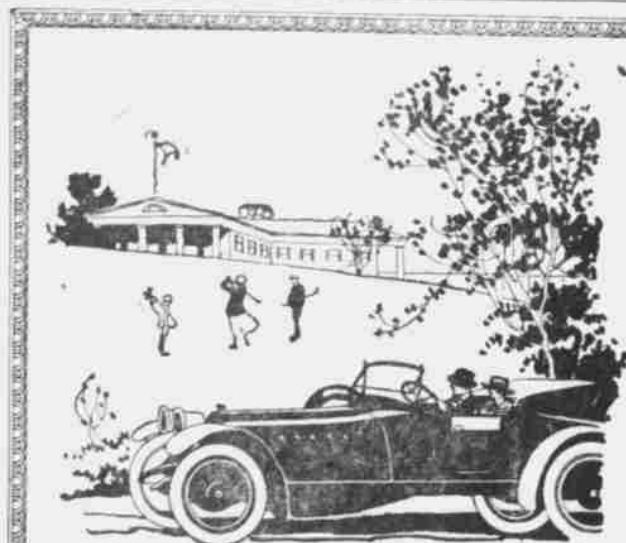

Our circular of September 29, 1919, advising miners to stay away from Copper Basin is hereby annulled. STRIKE IS SETTLED AT COPPER BASIN.

## FORTUNES IN FURS FROM THE ARCTIC

(Correspondence of Associated Press) NOME, Alaska, Sept. 24.—Fortunes in furs were brought out of the far north this summer by the few trading schooners that braved the unusual heavy Arctic ocean ice and worked their way along the northern rim of the continent to Banks Land and Herschel Island and back again.

Over 2,500 furs were stored on Banks Land alone, awaiting the boats, according to reports brought here. For two years the ice has prevented boats from reaching the coast and as a result, the trappers on the island have been piling up what Nome men said was the greatest cargo ever brought around into the Bering sea.

## AMERICAN FOOTBALL PLAYED IN CHINA

(By Associated Press) SAN FRANCISCO, Oct. 21.—American football and baseball have been successfully introduced at Tsinghua college, Peking, China, according to Miss S. Lowe, registrar of the college who was here recently on leave to China after a tour of the United States.

Eight years ago Lowe left for China after having graduated from the University of California, where he was known as an all-around athlete.
